

ERC

Engineering Research and Consulting, Inc. (ERC) provides engineering, scientific, technical, and administrative services to Department of Defense (DoD) and NASA customers across the United States. ERC was founded in 1988 by Dr. Susan Wu, who in 1964 became the first woman to receive a PhD in Aeronautics from Caltech.

Headquartered in Huntsville, AL, ERC is a large small business – at approximately 800 personnel, we qualify as a small business under NAICS 541712 at the 1000 and 1500-employee levels. We were awarded an **OASIS contract under Pool 6**, which is set aside for task orders falling under NAICS 541712, exception A, Aircraft.

ERC is ISO 9001:2008 Certified

We will significantly enhance the quality of life for our employees and their families; and because we take care of and enable our employees, we help them do their best for our customers.

We have experience across all six OASIS Core Disciplines:

- ✓ Program Management
- ✓ Management Consulting
- ✓ Scientific
- ✓ Engineering
- ✓ Logistics
- ✓ Financial Management

ERC's capabilities include:

- ✓ Engineering and Technical Services (Aeronautical, Chemical, Electrical, Mechanical, Structural, Sustainment, Systems, Safety)
- ✓ Research and Development
- ✓ Test and Evaluation
- ✓ System Acquisition Support
- ✓ Advanced Systems Operations and Maintenance Support
- ✓ IT and Software Development Support
- ✓ Safety, Quality, and Mission Assurance
- ✓ Configuration and Data Management
- ✓ Prototyping and Fabrication
- ✓ Independent Verification and Validation
- ✓ Modeling and Simulation
- ✓ Technical Documentation
- ✓ Data Acquisition and Analysis
