vehicles

As an OASIS Pool 6 award winner, WBB sees many opportunities for collaboration with other OASIS winners to bring the most effective and efficient products and services to our nation's federal departments and agencies.

At WBB, quality comes standard. Our commitment to clients extends beyond solving their near-term, mission critical problems. We are delivering sustainable, measurable results across the Department of Defense, Veteran's Administration, Department of Homeland Security and others. In the current fiscal environment, WBB remains committed to quality work while aggressively positioning ourselves with competitive rates.

Over the past ten years WBB has successfully supported the Air Force across multiple programs. We currently provide multi-functional support to a myriad of Air Force projects, including the C-17, C-130, C-5, F-22, F-15 and KC-46 programs at Wright Patterson AFB, and AMRAAM, Fuzes, Development Planning, SDB

II, LRSO and other weapons programs at Eglin AFB. Our SMEs are former Air Force Program Directors, Program Managers, Contracting Officers, Chief Engineers, Acquisition Logisticians, Systems Engineers and Program Control Chiefs with expertise across the acquisition life cycle.

In addition to our broad and deep acquisition staff, WBB has a robust proposal development team, enabling greatly enhanced proposal quality and throughput, and an operationally nimble and responsive staffing model for greater agility for hiring and staffing.

WBB is positioned for growth and we look forward to the opportunity to demonstrate our competitive skills with like-minded OASIS winners.

## QUALITY COMES STANDARD

WBB is a company of many talents and vast experience spanning acquisition and program support, capabilities development and analysis, mission performance, technology and engineering. Every team working with our clients is backed by the strength and resources of the entire company - powerful reach-back support across all corporate skill sets - resulting in a rich, dynamic solution.

Founded in 1981, WBB has nine security-cleared offices located near our federal U.S. government clients to guarantee engagement from top personnel. We continue to meet client challenges by contributing innovative advances in technology, tactics, and techniques that produce the desired results for our clients. At WBB, quality always comes standard.

# SERVICES AND SOLUTIONS

We tailor our solutions in response to our clients' many multi-faceted organizational challenges. WBB has a diversity of competencies representing all aspects of organizational management, transformation, and support. Our professionals maintain an in-depth, current understanding of their areas of expertise and are practiced at combining those skills to form specialized support teams that can tailor their skills to address even the most complex challenges our clients face.

From acquisition management to business process development, from program management to system engineering, WBB brings together the skills, experience, and insight needed to develop custom-tailored solutions to your most pressing management, financial, technical, or other challenges and keep your organization on target and on mission.

WBB's services and solutions includes the following:
