

***THE VALUE OF  
SERVING OUR NATION  
AND OUR CUSTOMERS  
CONFIDENTLY***

***THE VALUE OF PERFORMANCE.***  
***NORTHROP GRUMMAN***

## Cyber

### ***The value of staying ahead of cyber threats.***

Outpacing the rapidly evolving cyber threat spectrum demands constant innovation. Through aggressive technology investments in key research areas, such as identity management, situational awareness, modeling and simulation, cloud security, and supply chain management, Northrop Grumman has a deep understanding of cyber's breadth of complexity.

## Unmanned Systems (UMS)

### ***The value of keeping people out of harm's way.***

In sea, land, air and space, Northrop Grumman is the recognized leader in unmanned systems. The depth and breadth of our platforms and technologies portfolio provide customers with a wide-range of capabilities. Unmanned systems operate in areas where manned vehicles cannot, allow for prolonged missions, and help reduce risk to both national security and human lives.

## C4ISR

### ***The value of gaining superior information.***

Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance – better known as C4ISR. From leading-edge microelectronics to the largest, most complex system-of-systems in the world, Northrop Grumman's C4ISR breadth, depth and ability provides first responders, intelligence gatherers, decision-makers and military personnel on the front lines the tools necessary to act with speed and confidence.

## Logistics

### ***The value of preparing people and technology for the future.***

Northrop Grumman is focused on creating innovative, cost-effective logistics solutions. From modernization and sustainment, to supply chain management, training and simulation, and automated test equipment, we offer a full-spectrum of support to meet any mission requirement.
