

Aligned with your needs.

Your Choice for OASIS Solutions

Achieving your mission in today's procurement environment can be complex and challenging. While defining the ideal technical solution is vital, just as important is acquiring that solution quickly and cost-effectively. One contract vehicle – supported by one contractor – meets both requirements: OASIS, the One Acquisition Solution for Integrated Services.

Fast, flexible and designed to help you obtain the professional services you need, OASIS:

- Conveniently offers all task order types;
- Offers pricing at the task order level; and
- Reduces duplication of contracting efforts

In short, OASIS gives government agencies real choice and greater control than ever.

As an OASIS prime contractor, Alion can deliver the essential technologies and services you require while ensuring you of responsive, expert acquisition management, letting you focus on your mission.

Alion's technical expertise is unmatched and our acquisition strategies, backed by decades of experience managing government-wide contract vehicles, are proven. Our dedicated OASIS Program Management Office ensures you of responsive, expert support to help streamline your acquisitions.

From engineering and weapon systems to research and development and beyond, Alion delivers seamless solutions that help maximize your results and your budget.
